

Ergonomic

- / State-of-the-art design makes a clear footwell with wellplaced pedals which give plenty of room for large feet space and help the driver's comfort working.
- / The simple, concise instrument panel minimizes confusion but gives the key warnings to operator.
- / Hydraulic levers can be mounted beside the battery or on the scuttle, giving easy access from either side. The conventional cabin layout makes the inexperienced operator work easily without time-consuming training.
- / Adjustable steering wheel and seat make the operator in comfortable working position.

Maneuverability

- / Drive to the rear steering wheel gives safe truck operation in confined spaces. The turning angle of rear wheel is upto 90 degree, compared with the same load capacity 4 pivot trucks, the turning radius is smaller about 400 to 450mm.
- / Driving speed is automatically reduction during cornering.

Reliability

- / AC motor is the simple brushless motor, less maintenance and better suitability for wet & explosive conditions.
- / Maintenance is easy and low-cost.

Side battery change

- / 24V battery is ideal for two or three shifts requirements, and side battery change is a perfect option to change the batteries quickly.
